

negotiating contract price or cost adjustments that may be needed to equitably resolve the overall cost impact of the aggregated actions.

(4) Until the cognizant Federal agency official has determined that a change to a cost accounting practice is deemed to be a desirable change, the change shall be considered to be a change for which the Government will not pay increased costs, in the aggregate.

(d) *Noncompliant cost accounting practices*—(1) *Findings*. Prior to making any contract price or cost adjustment(s) under the provisions of paragraph (a)(5) of the contract clause set forth in 9903.201-4(a) or 9903.201-4(e), or paragraph (a)(4) of the contract clause set forth in 9903.201-4(c), the Contracting Officer shall make a finding that the contemplated contract price and cost adjustments will protect the United States from payment of increased costs, in the aggregate; and that the net effect of the adjustments being made does not result in the recovery of more than the estimated amount of such increased costs. While individual contract prices, including cost ceilings or target costs, as applicable, may be increased as well as decreased to resolve an estimating noncompliance, the aggregate value of all contracts affected by the estimating noncompliance shall not be increased.

9903.201-7 Cognizant Federal agency responsibilities.

(a) The requirements of part 9903 shall, to the maximum extent practicable, be administered by the cognizant Federal agency responsible for a particular contractor organization or location, usually the Federal agency responsible for negotiating indirect cost rates on behalf of the Government. The cognizant Federal agency should take the lead role in administering the requirements of part 9903 and coordinating CAS administrative actions with all affected Federal agencies. When multiple CAS-covered contracts or more than one Federal agency are involved, agencies should discourage Contracting Officers from individually administering CAS on a contract-by-contract basis. Coordinated adminis-

trative actions will provide greater assurances that individual contractors follow their cost accounting practices consistently under all their CAS-covered contracts and that changes in cost accounting practices or CAS non-compliance issues are resolved, equitably, in a uniform overall manner.

(b) Federal agencies shall prescribe regulations and establish internal policies and procedures governing how agencies will administer the requirements of CAS-covered contracts, with particular emphasis on inter-agency coordination activities. Procedures to be followed when an agency is and is not the cognizant Federal agency should be clearly delineated. Internal agency policies and procedures shall provide for the designation of the agency office(s) or officials responsible for administering CAS under the agency's CAS-covered contracts at each contractor business unit and the delegation of necessary contracting authority to agency individuals authorized to administer the terms and conditions of CAS-covered contracts, e.g., Administrative Contracting Officers (ACOs) or other agency officials authorized to perform in that capacity. Agencies are urged to coordinate on the development of such regulations.

9903.201-8 Compliant accounting changes due to external restructuring activities.

The contract price and cost adjustment requirements of this part 9903 are not applicable to compliant cost accounting practice changes directly associated with external restructuring activities that are subject to and meet the requirements of 10 U.S.C. 2325.

9903.202 Disclosure requirements.

9903.202-1 General requirements.

(a) A Disclosure Statement is a written description of a contractor's cost accounting practices and procedures. The submission of a new or revised Disclosure Statement is not required for any non-CAS-covered contract or from any small business concern.
